

# QUIN DELTA DRILL SHIP

## BENEFITS

---

- Self-propelled ocean-going vessel
- Shallow draft of only 5ft allows access to smaller tributaries and tidal areas
- Fast and stable anchoring using 21m long spuds reduces footprint
- Full galley, 8 berths & head on-board for full-time operation
- Ideal for ports & harbors and near bridges

## SPECIFICATIONS

---

- Equipped with marinized Mobile B-80 drill rig
- Capable of pushing CPT with 20-ton reaction force.
- Sampling: SPT, Cal-Mod, Shelby Tube, HQ/NQ coring, piston sampler
- Vibracore and gravity core sampling
- 21.3m long spuds for anchoring in water up to 18.2m deep (60ft)
- 3 and 4-point anchoring for deeper water
- Dimensions: 30.5m long, 9m beam, 15.2m tall
